

CANTON.

(FROM OUR CORRESPONDENT.)

Canton, 29th December.

SUPPRESSING THE KWANGTUNG REVOLT—
THE NATIVE CHRISTIANS.

It is said that the Acting Viceroy Tak Sow has sent despatches to the Consuls saying that so far he has succeeded in suppressing the rebellion in Kwangtung, that he has sent emissaries to find out and arrest any person or persons suspected of having had anything to do with the outbreak, and that in case any native Christians be arrested under suspicion or otherwise of having anything to do with the rebels and brought to trial, as they are equally with non-Christians amenable to the laws of China the missionaries must not interfere; otherwise he says it would be impossible for the Chinese officials to do their duty in effectually stamping out the rebellion.

NORTHERN NOTES.

The following items are from the *Peking and Tientsin Times* of the 15th inst.:

The International Club in Peking was opened on Sunday, the 9th inst. Count von Wallersee is the President.

A Court official named Su Li-hui-kai has been discovered revealing Court secrets, and has been handed to the Board of Punishment.

The Board of Revenue is stated to have drawn Tls. 300,000 from the Hongkong and Shanghai Bank in Peking to defray the expenses of the Metropolitan officials.

The *Amoy Pao* states that owing to the property among the people, the house tax of 1,000 cash levied in the British quarter of Peking has been remitted.

All reports from Shensi confirm the rumoured sufferings from famine. The Cantonese have sent several contributions to the starving people, but it is questionable how much will reach the destitute quarter.

A great quantity of counterfeit coin, both dollars and twenty cent pieces, is being made in some of the villages round, and we hear that a foreigner has also been concerned in this risqué business as well as the natives.

The British military authorities are constructing a strong bridge over the canal on the Race Course Road, the existing one, albeit now, not being regarded as strong enough for artillery traffic. They are also, we notice, engaged laying water pipes in the Extra Concession.

At Yau-Wa, where the Russians had a camp some time since, a quantity of Chinese ammunition was buried, as the Russians found it useless for their guns. Since they vacated the camp, the Chinese have been going there secretly by night and digging the ammunition up.

The *Amoy Pao* publishes a telegram stating that acting under the advice of the high officials in the Court, Tang Fulin has been given an Imperial Commission to visit Mongolia, Tibet, Kansu, etc., to enlist soldiers and raise an Imperial Guard. The real object is to get him and his obstructing forces out of the way, and clear the road for the Imperial return.

The Provisional Government have succeeded in arresting a number of counterfeit cash coiners lately, and have seized a quantity of machinery. The coiners admitted having thirty-seven laboratories in the village of Ho-chwangtze, where they were caught, and gave the name of a foreign compradore who is associated in the business.

The port closed unexpectedly on the 8th inst., and the river is frozen hard in most of the reaches, while skating has been liberally indulged in on the canals and ponds for the past ten days. Very great inconvenience has been experienced owing to the port closing before half the steamers at the Bar had discharged their cargoes, and several of the stores here have experienced considerable loss through their Christmas goods having to go back to Shanghai. The community will miss a great many of the agreeable accessories of Christmas in consequence, and the supply of many necessary lines will be limited.

We cannot but feel the greatest satisfaction that whatever other rascals may be abroad ones at least got his deserts in the Native City last week. The execution of Tan Wen-hua gave as much satisfaction to the Chinese as to foreigners, even more so, as they appear to have been even more keenly interested in the locality than we were, and they are unanimous in the opinion that the military authorities have done an exceedingly good work in removing him. In addition to being a pronounced foreign hater, Tan snatched every Chinese in foreign employ from whom it was possible to extract a dollar, and he was consequently dredged by the compradores in Tien-sin.

The Tongku correspondent of the same paper, writing on the 12th inst., records the presents on the 9th to Capt. F. M. Wise of the S. S. Monocacy and Mr. T. F. Strangman, Assistant Surveyor and Harbour Master of Imperial Chinese Customs at Tongku, of a large banner 8 feet long and 4 feet wide, bearing inscription in Chinese characters wishing them safe and happy life, and had their names Chinese. The banner was presented to these men by the people of the Yu-chuan, commonly known as the Fish Village, in regard of their services in saving the village from destruction by the Russian soldiers after the battle and several houses had been burnt.

TAYLOR-CARRINGTON CO.

Taylor-Carrington Company announce their return that they have determined to the performance of *East India* to-night, of the numerous festivities of a social character announced for this evening. To-night's performance will positively be the season on which occasion the company, acting on the prevailing "spirit of fun," will present their patrons with some New Year's gift in the form of a dramatic version of *Holiday*.

Mr. CARL GEORG—Thank you.

Mr. KELLY seconded the motion, which was carried unanimously.

On the motion of Mr. ERIC GEORG, seconded by Mr. KELLY, Messrs. Atzenroth and Denison were re-elected directors.

On the motion of Mr. CARL GEORG, seconded by Mr. MERTA, Mr. A. O'D. Gourdin was re-elected auditor.

The CHAIRMAN—That concludes the business of the meeting, gentlemen! Another meeting will be called in January at which we shall be able to come to some decision as to the future of the company. I hope that all of you will come to the office and read for yourselves exactly what has been done.

THE GREAT EASTERN AND CALEDONIAN GOLD MINING CO., LTD.

A meeting of shareholders in the Great Eastern and Caledonian Gold Mining Co., Ltd., was held on Saturday for the purpose of receiving the final statement of accounts of the liquidator. Mr. R. C. Wilcox presided, and there were also present Messrs. G. Atzenroth, A. Denison (directors), S. A. Joseph, Carl Georg, J. dos Remedios, J. Anderson, R. M. Mohr, E. S. Kelly, E. Elias, and L. Lambotte (liquidator).

The LIQUIDATOR read the notice calling the meeting.

The CHAIRMAN said:—Gentlemen, the proceedings of this meeting are purely formal. The liquidator of the old company simply had to take it over as a going concern, and he has now prepared his final statement of accounts, which has been laid before you. All that is necessary in this connection is that it should be passed by the meeting. I beg to propose, therefore, that the statement of accounts, as presented by the liquidator, be adopted.

Mr. JOSEPH seconded and the motion was carried unanimously.

The notice convening the meeting having been read,

The CHAIRMAN said—Gentlemen: In accordance with usual custom I propose to take the report and statement of accounts as read.

It is with much regret that your directors have to present to you a report so little in accordance with their past hopes and wishes. But you have been prepared for the upset of the investigations made by our new manager, Mr. M. Bonnecke. Mr. Waters, our late manager, told you directly after assuming charge that the mines at Mount Macdonald offered little prospect of giving paying results unless the company were prepared to spend large sums in sinking. Well, gentlemen, we decided to sink a deeper shaft, to go down some 500 feet, and instructions were sent down to that effect. These were only partially carried out, for Mr. Best seems soon to have been convinced of the hopelessness of the Mount Macdonald Mines yielding favourable results, and he turned his attention to a mine at Gospel Oak. That speculation, unauthorised by the Board, also turned out disastrously, and when we found Mr. Best had parted with Mr. Waters we telegraphed peremptory instructions for the suspension of further operations pending receipt of our written instructions. Mr. Bonnecke was therupon appointed to take over charge from Mr. Best, and he was instructed to make a full and unvarnished statement of the position of affairs and the prospects of the rival mines offered by the company by which it was engaged, their plant and battery could be profitably employed. These reports, gentlemen, have reached us, and are now open to the inspection of all the shareholders. They are too lengthy for me to read here, and if I did read them I think you would be unable to come to any decision upon the future of the company without much further consideration than would be given here and now. It has therefore been deemed advisable to invite shareholders to come to this office and read these reports carefully, and we then propose to call an extraordinary meeting, at which the decision of the shareholders will be asked as to whether they elect to make an offer to the owners of the Sunny Corner claim, terms suggested by Mr. Bonnecke—which I may mention are very different from those asked—or whether they will vote for the voluntary winding-up and liquidation of the company. That is all that occurs to me to say now, and as no good is to be effected by recriminations or even by apportionment of blame for the failure of our speculation, I would suggest that gentlemen desiring explanations on any point should apply to the general agents for the same after the meeting. If you agree with me on this point, I will formally propose the adoption of the report and accounts. At the same time, I am ready to answer any questions which the shareholders may have to put, and I trust they will confine them to the report laid before them, because I cannot enter upon the reports sent by the new manager. If I were to read them, they would only go at one ear and out at the other, and it would be impossible for you to retain any idea of them without studying them carefully.

Mr. CARL GEORG—Would it not be better to print and circulate these reports? It would only be a matter of \$20 or \$30. By merely reading them once I do not see how any shareholder can retain them in his memory.

The CHAIRMAN—I don't think that would be advisable. Parts of the reports, I think, should not be printed. It would be better, indeed, for all those interested in the meeting to come to the office and see for themselves what has been written. There is no good purpose to be answered by printing them, and I fancy it would be a greater expense than you think. It would run nearly to \$100.

Mr. CARL GEORG—It will be no use at this meeting to speak about the property.

The CHAIRMAN—I think not. Mr. George, I think it would be much better to defer these matters until the meeting we are going to call, and then the shareholders can make a final decision as to what they will do. It will rest entirely with them. Though I do not want to influence you in any degree, I think that until these reports have been thoroughly digested, it would be idle to talk about the future of the company.

Mr. CARL GEORG—Would it not be better to print and circulate these reports? It would only be a matter of \$20 or \$30. By merely reading them once I do not see how any shareholder can retain them in his memory.
